

TESTBOY 40 PLUS

Two-pole voltage tester

The Testboy 40 Plus is convincing due to a user-friendly construction and robust housing, which ensures a long operational life. The two-pole voltage tester reliably indicates AC and DC voltages in the range of 6 to 400 V. Furthermore, the electronics enable phase search to the protective earth.

How you benefit:

- | User-friendly and robust
- | Voltage range up to 400 V AC/DC
- | Phase search to the protective earth

Specifications

Technical Data	TESTBOY 40 PLUS
Display	Optical, 8 LEDs
Overload Category	CAT III 400 V
Dimension	120 x 60 x 30 mm
Weight	100 g
Colour	red/black
Supplies, Optional	Carrying case
Voltage Test	6 - 400 V AC/DC
Power Supply	Via measurement object
Polarity	Yes (+, LED)
Standard	EN 61243-3:2010
Overload Category	CAT III 400V
Display	optical, 8 LEDs
Supplies, Optional	readiness bag
Dimension	120 x 60 x 30 mm
Housing	High-quality plastic with rubber handle area
